
TESTING MATH PLUGINS

20th May, 2024

created in  Curvenote

Keywords

1 No plugins

$$a^2 + b^2 = c^2 \tag{1}$$

2 Simple plugin

Project frontmatter should give us d

$$d = d \tag{2}$$

Page should override and we should see x

$$x = x \tag{3}$$

3 Macros should recurse

Page frontmatter should fill in this project macro

$$x = x \tag{4}$$

Project frontmatter should fill in this page macro

$$d = d \tag{5}$$

Double recurse

$$d = d = d \tag{6}$$
